Open University Press. Paperback. Book Condition: new. BRAND NEW, Doing Social Work Research, Roger S. Smith, "The book provides a well written guide that adeptly captures the sensitivities and complex implications of both research process and dissemination within the ever changing and highly regulated world of social work." Victoria Foster, Research Associate, School of Nursing, Midwifery and Social Work, University of Manchester, UK, in British Journal of Social Work June 2010 "This book offers many practical examples of research projects taken from the author's own experience as a researcher. These examples illustrate the usually complex concepts of research methodology by showing how they are practised in the real world of social work, so the title is apt. Especially useful are the common features of social work research discussed at length in the final chapter, as a way of finding common ground in the disputed terrain of social work as a profession, and in social work research in particular." Heather D'Cruz, School of Health and Social Development, Deakin University, Australia "Smith clearly highlights the parallels between the values of social work and the values that underpin research in this area, and in so doing, demonstrates the emancipatory potential of social work research. this is a valuable text that will help to allay many of the fears associated with conducting social work research. " Caroline Andow, Senior Research Fellow, University of Southampton, Social Sciences Department, UK "As a third year social work student I found this book a good consolidation of what I have been learning this semester in my research and evaluation module. It has helped me with my end of module assignment, to demonstrate my understanding of social work research through a detailed literature search .I found the practical examples of actual pieces of research particularly useful in getting an idea of how...
