Excerpt: . . . c beer to be had at the public house, and divested of the poisonous drugs which that beer but too often contains; and I shall further suppose that he uses in his family two quarts of this beer every day from the first of October to the last day of March inclusive ; three quarts a day during the months of April and May; four quarts a day during the months of June and September; and five quarts a day during the months of July and August; and if this be not enough it must be a family of drunkards. Here are 1097 quarts, or, 274 gallons. Now, a bushel of malt will make eighteen gallons of better beer than that which is sold at the public houses. And this is precisely a gallon for the price of a quart. People should bear in mind, that the beer, bought at the public house, is loaded with a beer tax, with the tax on the public house keeper, in the shape of licence, with all the taxes and expenses of the brewer, with all the taxes, rent, and other expenses of the publican, and with all the profits of both brewer and publican; so that when a man swallows a pot of beer at a public house, he has all these expenses to help to defray, besides the mere tax on the malt and on the hops. 26. Well, then, to brew this ample supply...
