Brand New Book ***** Print on Demand *****.Aperture 3.2.1 is the ideal photo-editing program for the casual or professional photographer who needs the power of Photoshop without the hefty price tag or the learning curve. Since Aperture was first introduced in 2005, Apple has added a host of technical features, including RAW editing, brush adjustments and curves to satisfy advanced users, while streamlining the intuitive, user-friendly interface that makes it easy to upgrade to Aperture from iPhoto. The launch of Aperture 3.2.1 also includes a bevy of iPhoto-friendly image management features, along with iCloud and photo stream support, making Aperture a dual program for image processing and file management/photo sharing. This guide includes step-by-step tutorials for image editing, image management and photo sharing, along with screenshots documenting each step in the process. From retouching photos and organizing libraries to sharing images and printing professionally designed photo books, we'll help you get the most out of Aperture.
