

Life at the Speed of Light: From the Double Helix to the Dawn of Digital Life (Paperback)

By J Craig Venter

Penguin Books, United States, 2014. Paperback. Book Condition: New. Reprint. 212 x 138 mm. Language: English. Brand New Book. Venter instills awe for biology as it is, and as it might become in our hands. Publishers Weekly On May 20, 2010, headlines around the world announced one of the most extraordinary accomplishments in modern science: the creation of the world s first synthetic lifeform. In Life at the Speed of Light, scientist J. Craig Venter, best known for sequencing the human genome, shares the dramatic account of how he led a team of researchers in this pioneering effort in synthetic genomics and how that work will have a profound impact on our existence in the years to come. This is a fascinating and authoritative study that provides readers an opportunity to ponder afresh the age-old question What is life? at the dawn of a new era of biological engineering.

Reviews

These kinds of ebook is almost everything and got me to searching forward and a lot more. It usually does not price excessive. Its been written in an exceedingly basic way and is particularly only following i finished reading through this pdf through which in fact modified me, alter the way i really believe.

-- Athena Jones

I just began reading this pdf. It is actually writter in straightforward words instead of hard to understand. Once you begin to read the book, it is extremely difficult to leave it before concluding.
