By Davis Company Parke

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1902 Excerpt: .F.R.C.S. ENG., ADELAIDE, SOUTH AUSTRALIA. The Therapeutic Gazette, October, 1902. On January 21, 1902, I had occasion to open the bladder of an old man of 74 years, and determined to try spinal anesthesia, as previously I had done successfully. He was given Chloretone, but two injections of cocaine in a solution of Chloretone failed to produce any effect. Chloroform was given, and a part of the prostate blocking up the right ureter was removed, and the vas of the same side tied. No sickness followed. Since then every case under my care has received a dose of 15 grains of Chloretone two hours before anesthesia. The results are eminently satisfactory. The author publishes a table of 41 operative cases, 35 of which were treated with Chloretone. Of these 35 patients, one was nauseated on two occasions after the anesthetic, and two vomited once, each.--Ed. Notes....

### Reviews

*These sorts of pdf is the greatest pdf available. It really is writter in simple words and never difficult to understand. I am just very easily could get a delight of studying a written ebook.*

-- **Mr. Allen Cassin**

*This book might be worth a read, and superior to other. Of course, it really is engage in, still an interesting and amazing literature. It is extremely difficult to leave it before concluding, once you begin to read the book.*

-- **Prof. Valentin Hane MD**
